MBA Analyst Summer Internship Programme 2023

Equity Research

Hong Kong / Shanghai / Singapore / Tokyo / London / Toronto

Who we are

We've been helping clients plan and invest for their futures for over 50 years. From more than 25 locations around the world, we provide investment services and retirement expertise to everyone from central banks to private individuals. We're known for acting with integrity and thinking for the long-term. And across our organisation, we foster a welcoming, caring and inclusive culture where people feel respected, trusted and able to be themselves.

The team you'll join

The equity research department – 125 global equity analysts and an additional 90 Research Specialists based across India and China, provide analysis on companies, stocks and sectors, working closely with fund managers to select stocks for their portfolios.

What you'll be doing

On our 12-week programme, our interns will mirror the experience of a full-time Equity Analyst, conducting fundamental research to make buy and sell recommendations on stocks. You'll be assigned a discrete industry sector and group of stocks (approximately 3-8) to analyse. You'll have access to resources available to all our analysts and will be assigned to a Portfolio Manager mentor. The Summer Interns will also have regular communication with a Director in Equities. You'll present the findings and provide investment recommendations to our Portfolio Managers and Analysts. A graduate offer will be extended if you complete the internship successfully and you can start the full-time job upon graduation.

The difference you'll make

You'll contribute to positive, meaningful work that makes a difference to our clients. You'll help them invest and plan for the futures they want. You'll provide invaluable support to your team, too.

How you'll be supported

You'll start with a welcome and an orientation, where you'll meet your fellow interns and find out all about us and our work. Once the programme begins, you'll learn every day – from the experts around you and through tackling real projects. Our focus will be on supporting you to gain experience and discover what kind of future you could build in our industry.

What we're looking for

It's who you are that matters here, rather than what you studied. We look for MBA students with up to 3 years of experience who are brave, bold, compassionate, eager to learn and ready to take on a challenge. A genuine curiosity about investment is vital, as is a lively interest in our work and our industry. And, as we're an international organisation, we'll need you to speak English.

How to apply

This programme is open to students in the first year of MBA programme (Class of 2024 preferred). As part of our commitment to inclusion, we are a disability-friendly company. As such, we would welcome a conversation with you if you feel you might benefit from any reasonable adjustments to perform to the best of your ability during the recruitment process and beyond. For any enquiries regarding your application, you can reach us at earlycareersatfidelity@fil.com.

Our application window closes on Friday, 2 December 2022 at 11:59pm NY Time. Please note that you are required to submit a one-page stock pitch. Also, there is an online assessment which you'll need to complete by the time the window closes. It will take around 40 minutes to complete, so make sure you give yourself plenty of time.
